REASONS WHY.

Royal Baking Powder is the

Best in the World.

I Royal Baking Powder is absolutely pure, and the only absolutely pure baking powder made. All others con tain alum, lime, or other impurity. All the ingredients of

"Royal" are first rendered chemically pure, so that no

adulterant can possibly enter into it, and it is composed only

of those materials pronounced by the most emm at physi

comes and chemists, and proven by practical experience, indispensable for the production of a perfect baking powder "It is a scientific fact that Royal Baking Powder is abso-

2 The Royal Baking Powder is of the highest test

strength. It produces the maximum amount of gas attain

able in a baking powder compounded from proper and

wholesome materials, and is, therefore, of the highest possible h wening power. "I find the Royal Baking Powder to

produce 127.4 cubic inches of leavening gas per ounce of

powder" (the largest amount given by any baking powder

3 The Royal Baking Howder is entirely free from lime -a quality of the highest importance. The trate of lime is present

in all other baking powders, chiefly as an adulterant of the

cream of tartar used in their munifacture. Cream of tartar, scaned by patent processed that totally diminate all the lime and other impurities, is use leavely in the" Royal," but no other powder all a of tartar manufactured by the New York Tartan Company and used in the manu

Oroup — A Mollier's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with crupit seemed as if he would die from strange lation. One of the family suggested the use of AYER'S CHERRY PETCHAKI, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little pation was breaking easily. The doctor said that the CHERRY PETCHAL had saved my darling a life. Can you wonder at our graditule? Sincerely yours.
